Boost the value of your research and innovations by letting us take care of your communication. Read further and discover how we can add value to your work!
Who are you?

Are you a professional in the research and innovation sector? Do you need to:
- Secure funding?
- Publish results?
- Promote your product or service?
- Explain your policy?
- Gain support for your idea?

Then you need effective communication. And that is our added value for you.

How can we help you?

NST Science ensures that your ideas, output and products across the entire knowledge chain are communicated effectively to the desired target audience.

We take care of your communication so that you can focus on your research and innovation.

Do we understand your field?

We always match your communication need with a specialist who has a good knowledge of your field. Because we believe that effective communication starts with understanding your client's subject.

Which services do we offer you?

1. Editing
2. Copywriting
3. Subtitling
4. Translation
5. Training and Advice
1. Editing

We edit texts in Dutch and English, such as research papers for publication in a specific journal, annual reports, web content and brochures.

Our editing service goes far beyond correct grammar. We ensure that your message is conveyed clearly, precisely and effectively.

**Typical turnaround times in working days are:**
- Research paper up to 4000 words: 4 to 7
- Annual report: 7 to 12
- Press release up to 600 words: 1 to 2
- Web article up to 1500 words: 2 to 3
- Call for proposals: 4 to 6
- PowerPoint presentation up to 30 slides: 3 to 4
- Brochure up to 3000 words: 3 to 4
- Report up to 5000 words: 3 to 5
- Report 5000 to 10,000 words: 5 to 7
- Report 10,000 to 20,000 words: 8 to 10
- Newsletter up to 3000 words: 3 to 4
- Legal documents up to 5000 words: 4 to 7

2. Copywriting

You do not always have the time or expertise to produce the text you want. We can write a text from scratch using your briefing, or we can take a draft and complete the job for you. We can also produce commercial texts that promote your research, innovative product or organisation, including scripts for promotional films.

We offer copywriting in Dutch and English. How long a copywriting job takes depends on the type of job and the brief.

3. Subtitling

We work closely with top-quality subtitling providers. They take care of the subtitling process, but we ensure that the subtitles produced get the science right.

A short film, lasting just a few minutes, can usually be subtitled within 5 working days.
4. Translation

Languages pairs we regularly translate are:
- Dutch to English
- English to Dutch
- Dutch to German
- German to English

We can also provide you with translations to or from French, Italian, Portuguese, Spanish and the Scandinavian languages. Other language combinations can be arranged on request. We can translate the entire document or provide a summary of it in the desired language.

Typical turnaround times in working days are:
- Press release up to 600 words: 2 to 3
- Web article up to 1500 words: 3 to 4
- Call for proposals: 7 to 10
- PowerPoint presentation up to 30 slides: 4 to 5
- Brochure up to 3000 words: 5 to 6
- Research manuscript up to 4000 words: 7 to 10
- Report up to 5000 words: 5 to 7
- Report 5000 to 10,000 words: 7 to 10
- Report 10,000 to 20,000 words: 10 to 15
- Newsletter up to 3000 words: 5 to 6
- Legal documents up to 5000 words: 5 to 10

5. Training and Advice

NST Science has an extensive network and many years of experience. So you’d be surprised what we can offer advice on. For example, recently we could tell a client which Members of the Dutch Parliament have adopted a Sustainable Development Goal. And, of course, we can answer your language questions or give advice on how you can best convey your message to your target group.

And training? We have given courses on scientific writing and the peer-review process. Our training is always aimed at enabling researchers and innovators to pitch their results and ideas, with maximum effect.

Who do we work for?

NST Science works for numerous parties in the research and innovation sector. Our clients include funding bodies, universities, research institutes, government agencies, innovative companies and NGOs.
What do our clients say?

‘Translations from Dutch to English in the fields of physics and chemistry are excellent. Texts are accurate, precise and well written. Our researchers are really pleased with the work produced.’

Petra Rodruigez,
Communication Officer, AMOLF

‘NST Science has translated and edited our texts for many years. They understand the language used in our business. Their service is fast and accurate and they provide valuable feedback. NST Science delivers on time even when the deadlines are tight.’

Peter Loenen,
Communication Manager, Topigs Norsvin

‘Dave Thomas and his team always provide a professional service and personal care.’

Dr Wouter Van der Heide,
Associate Professor, Department of General Practice Medicine, University Medical Center Groningen

‘NST Science regularly revises, finalises or translates our texts for publication on our website or in our newsletter. They understand our market, think with us and produce high-quality work.’

Naomi Vorstermans,
Communication Advisor, Health–Holland

‘Grant applications and scientific publications are significantly better as a result of their work.’

Dr Hendrik-Jan Roest,
Head of the Department of Bacteriology and Epidemiology, Wageningen Bioveterinary Research

‘At NWO most of our communication with researchers is bilingual. Our texts for researchers are important and need to be spot on, in both Dutch and English. And we can always trust Dave and his team to do that. NST Science delivers quality, honours agreements, communicates clearly and thinks with us. I really enjoy working with them.’

Lieke van Emmerik,
NWO - Team Leader Communication, Domain Social Sciences and Humanities

‘NST Science regularly writes voice-over texts for us and they are a pleasure to work with. They always convey the essence of the story with the right tone of voice.’

Carlien Megens,
Video Producer, Megens&Veenstra
